

How to Copy & Paste the Activation Key

Secure-eBook - Confirmation of purchase

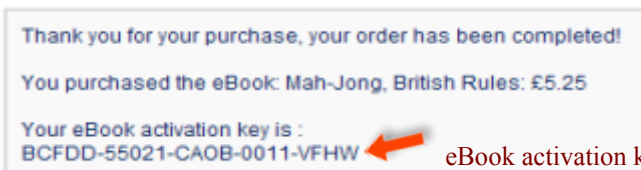

Confirmation of purchase

After you have paid for the eBook you will see a confirmation of purchase page which contains your **unique eBook activation key**.

You could, of course, copy this by hand into the **eBook Activation pop-up**, but that risks an error. And it is easier to copy and paste the key.

Locate the eBook activation key

The eBook activation key is shown in the **third paragraph** of the purchase confirmation.

Highlight the activation key

Highlighted activation key

If you have lost the confirmation of purchase the activation key is in the email that was sent to you

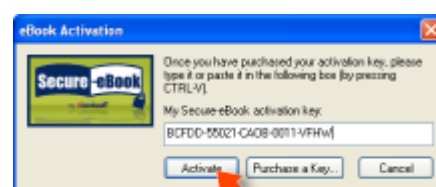

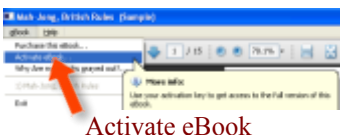

Move the cursor to the **start** of the activation key then **hold down** the **left hand button** of the mouse. With the button still depressed, **move the cursor along the key** until you get **to the end** of it. Release the button. **The activation key remains highlighted.**

Copy the activation key

With the activation key highlighted, depress the **Ctrl key** (bottom left hand corner of the keyboard). Keep it depressed, then depress the **C key**. This copies the activation key. Alternatively, you can depress the **right hand mouse button** then click on **Copy**.

Paste the activation key

Go back to the eBook (by clicking on the **Secure-eBook tab** in the task bar).

If the eBook Activation pop-up is not showing, click on **Activate eBook** in the **eBook** menu (top left).

Place the cursor in the **white box** of the **eBook Activation pop-up**. Depress the **Ctrl key**. Keep it depressed, then depress the **V key**. **The activation key should appear** in the white box. Alternatively, you can depress the **right hand mouse button** then click on **Paste**.

Waiting for Adobe Reader

Click on the **Activate** button. You will see the **“Waiting for Adobe Reader”** pop-up, then the **complete “Mah-Jong, British Rules” eBook** should appear.
